

Low & High Mount Portable

Strong, telescopic square steel tube design mounts high and low and is constructed for long life expectancy. Available in low profile (1') or high profile (5' and 7') sign mounting height, the Low & High Mount Portables are easy to handle and transport, and are economical enough to keep you within budget.

- Crashworthy – crash test report NCHRP 553 and FHWA acceptance letter WZ 240
- Tested and approved for use with 4' x 4', ½" plywood signs
- Can also use with aluminum or other lightweight substrates
