

# The Slip-Mate

## **An impact release sign post system.**

The lateral-release system is designed to work with the Ulti-Mate Square Tube Sign Support System and comes pre-assembled for foolproof installation. The patent-pending design minimizes the deceleration of a vehicle by utilizing an innovative ball-bearing system.

- Meets FHWA Change of Momentum Criteria
- Eliminates need to auger hole in ground and concrete
- No need for annual torquing of bolts
- Utilizes standard drivable anchor
- NCHRP 350 Compliant
