

Ultimate Barricade

Why settle for less when you can have the Ulti-Mate Barricade?

Made with durable Ulti-Mate Steel Tube components, the Ulti-Mate Barricade meets NCHRP 350 requirements. The strong, telescopic square steel tube design is highly portable, easy to assemble, and built for long life expectancy. It's been tested and approved for use with 4' x 4', 1/2" plywood signs, but can also be used with aluminum or other lightweight substrates.

- Crashworthy – crash test report NCHRP 553 and FHWA acceptance letter WZ 240
- Available to use with rails from 4' to 8'
- Available in various sizes and reflective board options
